A. General information on data processing

The protection of your personal data is important to us. In the following we would like to inform you in which form your data will be processed by us.

1. Personal data

According to Art. 4 para. 1 GDPR, personal data are all information relating to an identified or identifiable natural person; an identifiable natural person is one who can be identified directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more special features that are an expression of the physical, physiological, genetic, psychological, economic, cultural or social identity of that natural person.

Accordingly, personal data is any information relating to your person. This includes information such as your name, address, telephone number and e-mail address, but also data such as your whereabouts, your IP address or bank data.

2. Processing of personal data

We process the personal data of our users only to the extent necessary to provide the information offered on our website, a functional platform, and the provision of our content and services is necessary. Any further processing of your personal data will only take place with your consent.

This does not apply if the storage and processing of the data is permitted by legal regulations or is technically or for operational reasons necessary (e.g. for the fulfilment of contract modalities). Further cases are listed below in the description of the respective processing procedures.

3. Disclosure of personal data to third parties and other recipients

Cargonexx will not pass on your data to third parties unless Cargonexx has a legal or contractual obligation to do so. In no case will data be passed on without your knowledge. Personal data will only be collected and transmitted to government institutions and authorities entitled to receive such information within the framework of the relevant laws, or if we are obliged to do so by a court decision. Cargonexx also does not pass on your data to private third parties, unless they are external service providers (e.g. when sending e-mails or newsletters) who provide services in the name and on behalf of Cargonexx. Our employees and service providers are obliged by us to maintain confidentiality and to protect the personal and company-related data provided to us.

In some cases, we use extensions from third-party providers. If necessary, personal data can be passed on or transmitted automatically. The type, scope, purpose and duration of this processing of personal data may vary in individual cases. We therefore check in each individual case exactly which services from third parties we use on our platform and whether personal data is passed on in the process. Accordingly, we include data processing in this data protection declaration.

The passing on of personal data by us to third parties takes place in the cases listed by us.

4. Processing of your IP address by the web server

For technical reasons, Internet services can only be used by revealing your IP address. This is processed by the web servers that deliver these Internet pages. The processing for the delivery of our web pages is not anonymous.

IP addresses are unique numerical addresses at which your computer retrieves data or sends it to the Internet. As a rule, we do not know which person is behind the IP address in question; we cannot normally assign the data to a specific person that can be determined by us. Exception: When using our website, you inform us of your name, an e-mail address or other data which enable us to identify you. This takes place, for example, when you register as a user of our platform (see section B). Your identification may also occur if we take legal action against you (e.g. in the event of an attack on our website) and we become aware of your identity as part of the investigation procedure.

The temporary storage of the IP address by the system is necessary to enable the delivery of our pages to your computer. For this purpose, your IP address must remain stored for the duration of the session or beyond.

In addition, we store your IP address to detect and prevent misuse. The IP addresses are anonymized or deleted after 7 days at the latest. Your IP address will be processed on the basis of Art. 6 Para. 1 lit. f GDPR; our legitimate interest is the operation of our platform, as well as the recognition and defence against misuse and technical attacks.

5. Automatic acquisition of technical data (server log files)

Each time you access our platform, our system automatically collects data and information from the computer system of the accessing computer. This data is automatically transmitted from your browser to our web server, we cannot prevent this. Many companies also store these data in so-called log files and evaluate them statistically.

We do not carry out this evaluation and therefore do not store this data in our server log files.

6. Encrypted transmission

In the case of online collection and processing of personal data, the information is transmitted in encrypted form (via https) to prevent misuse of the data by third parties. All data entered by you on our pages is transmitted to us in encrypted form so that it is protected from inspection by third parties. Our website automatically forces an encrypted transmission of all contents throughout.

Encryption technologies that correspond to the current state of the art are used. The security measures are continuously revised in line with technological developments.

7. Use of Google Fonts

This page uses fonts provided by Google for the uniform display of fonts. When you access a page, your browser loads the fonts you need to display text and fonts correctly.

For this purpose, your browser connects to Google's servers. This will tell Google that our website has been accessed via your IP address. The use of Google Web Fonts is in the interest

of a uniform and appealing presentation of our online services. This constitutes a legitimate interest within the meaning of Art. 6 para. 1 lit. f GDPR.

If your browser does not support web fonts, a standard font will be used by your computer. Further information on Google Web Fonts can be found at <https://developers.google.com/fonts/faq> and in Google's privacy policy: <https://www.google.com/policies/privacy/>.

These cookies are deleted as soon as they are no longer required for processing.
